

UNIVERSITÀ DEGLI STUDI DELL' INSUBRIA

ITALIAN LANGUAGE COURSES – GENERAL INFORMATION

Lectures at the University of Insubria are in Italian (although research seminars may be given in English as well), therefore the knowledge of the Italian language would be essential for a fruitful Erasmus period.

We do offer to all incoming Erasmus students **A FREE ITALIAN LANGUAGE COURSE FOR BEGINNERS (30 hours)**, and normally our teachers do speak English and tend to help Erasmus students by providing them with English bibliography as well as permitting them to do their examinations in English.

Foreign students who come to Insubria to be engaged in laboratory, computer or library research activities can easily communicate in English with teachers and students.

Please indicate if you are interested in following the Italian Language Course clicking on “Yes” on the online application form.

Participating students do not have to pay any kind of fee, the course is free, 30 hours, basic level, and it will be organized in Varese and in Como.

The Italian Language course will start during the first half of October, after the arrival of all Erasmus Incoming students.

The incoming students will receive by e-mail:

- When the course will start;
- Where the course will take place.
